Description: The Ktima area in Paphos is well known as the thriving business quarters of this prosperous town. The quiet location is furthered by a wealth of amenities in the area, and is ideally suited to permanent residents, as well as buyers seeking to set up business premises. The Zygos centre in the heart of Ktima comprises a collection of well designed buildings offering 1 and 2-bedroom apartments and commercial units. A design triumph, the large cylinder tower of this development is set against the cubed architecture of the main buildings. A rare and promising investment opportunity!
